NMMA Certified Oil Registration Program for TC-W3®

Dear Mr. Yaroslav:

We have received your registration request for the two-stroke-cycle outboard engine lubricant coded ____ **G-Wave S Synth** ____ that has passed the NMMA Certification Tests for TC-W3®.

The certified lubricant has been assigned the following registration number:

TC-W3® __ RL-56680K __

For quality control reasons the certified lubricant may not be marketed as NMMA certified unless such lubricant bears the assigned registration number plus the year date.

The enclosed trademark license is in effect until December 31, 2010. In order to continue use of the NMMA certification marks or statements on or in connection with the certified lubricant, a new license agreement and payment of the annual license fee must be made before the end of the calendar year.

Any re-branding or re-blending of the certified lubricant will require a separate trademark license agreement with NMMA for the use of NMMA's certification marks on or in connection with such rebranded or reblended lubricant.

Please advise if you have any questions with respect to your assigned registration number or NMMA's Oil Certification Program.

Very truly yours,
National Marine Manufacturers Association
